

Images for Members' Galleries:

If you would like to submit images for the gallery, please note the following points:

- We will take up to 8 images from each person.
- Their filenames (without 'jpg') will be the titles appearing in the gallery.
I will be punctuate & capitalise titles if necessary.
- If you want the images to appear in a specific order, then start the filename with the number of the thumbnail position that you want.
e.g. 1spitting cobra.jpg. Images will appear in numerical or alphabetical order left-to-right.
- State if you want to show letters (ARPS, etc) after your name, otherwise they'll be omitted.
- If you like to process your own work, they will be put onto the web site without further alteration if they are :
 - JPEG
 - Not more than 400 pixels tall, nor 600 pixels wide.
 - Each file size less than 60 kb.
(In Photoshop, use 'Save-for-Web' and, using the Quality slider, adjust the file size to below 60kb before saving it as a JPEG)
 - Saved in the sRGB colour space.
Monochrome images may be in sRGB or greyscale.
Adobe RGB is not suitable for web images.
 - Before you send them in, check whether or not you wish to put a border around images, especially in monochrome.
- If they are not as above, I will modify the images before putting them into the gallery.
- I'll accept images on CD or as attachments e-mailed directly to me.
- The new images will be put up as soon I am able to do so.
- Member's images on the gallery will be either refreshed or removed after about 18 months.
- Give me a call if you have any queries.
